Hi !

One day soon. I'm going to be an assistance dog for Canine Companions for Independence. I go for training classes and work very hard to learn the special commands that I will use to help someone who needs me. Canine Companions for Independence trains hearing, service, and facility dogs to help people with disabilities live more independent lives.

Can you give this special dog a name?

If he/she was your very own Canine Companion, what types of things would he/she help you do?

# CONNECT THE DOTS

Canine Companion dogs should never be given food that you eat. They eat food that is for them. They may be given food like carrots, cauliflower, or other vegetables. It is very important to keep the dog on a good diet and NEVER let it have chocolate. Chocolate can kill a dog. A change in the dog's diet can give the dog an upset stomach. It is important to keep Canine Companion dogs healthy and in good condition so they can be a healthy and happy helper.
